

## **UK Certificates of Origin**

UK Certificates of Origin are a customs clearance requirement to evidence the origin of the goods involved in a shipment.

A UK Certificate of Origin is filled out by the exporter and states that the shipment has been wholly produced, manufactured or processed in a particular country.

Although the process and the requirements for foreign evidence will remain unchanged there will be a few amendments, you can find the guidance [here](#).

## **Egyptian Legalisation**

UK Certificates of Origin can also be legalised through us by the Egyptian Embassy if required. You would need to allow 5-7 working days for this service.

Download the guide for UK Certificates of Origin [here](#).
